

About Us

Coastal Housing Partnership was founded as a nonprofit in 1987 by a group of local South Coast employers who found it increasingly difficult to attract and retain talent due to the high cost of housing in our community. They created a network of local real estate professionals that offer savings on their services to employees of Coastal Housing member companies. Over the past 33 years, we've expanded our housing benefits to include savings on home purchases, mortgage refinances and selected apartment rentals. We also provide employees with home buying education seminars, home buying fair networking events, and online resources.
