

# Home Buying Seminars

One of the biggest obstacles to home ownership is lack of education about the home buying process. Come to one of our monthly 90-minute seminars in Santa Barbara or Ventura to learn everything you'll need to know on your path to homeownership! You'll learn about:

- Becoming a more informed buyer
- About the home buying and lending process
- Local housing market conditions and trends
- Saving money on your closing costs

These seminars are open to free for employees of Coastal Housing Partnership member employers, and open to non-member employees for a small fee.

*Home Buying Seminars will not be held in person through June 30, 2020. Please check back after that date, as we anticipate being able to schedule seminars at that time. In the meantime, please visit our online [home buying resource](#) for more information about the home buying process.*

*"I don't think I would have been able to do this without all the information I received at Coastal. I would have been so lost." – County of Santa Barbara employee*

*"This seminar was excellent! I feel much more confident in starting the process of buying a home." – Seminar attendee*
